## SUMMARY

---

Enthusiastic and detail-oriented full stack web developer with a solid foundation in front-end and back-end development technologies.

## EXPERIENCE

---

### iNeuBytes – Remote (web developer intern)

Jul-2023

- Designed the websites and web applications like my portfolio, live weather app and had cloned Netflix.
- Worked on the technology such as react.js, node.js, etc.

### Reliable – Remote (web developer intern)

sept-2023

- Developed websites and web applications like Landing page, Todos app.
- Worked on the technology like MERN (MongoDB, Express.js, React.js, Node.js).

## PROJECTS

---

### Real Time Chat Application

2024

- Live Link <https://chat-app-7m8h.onrender.com/>
- Independently developed a real-time chat application using the MERN (MongoDB, Express.js, React.js, Node.js) stack and Socket.IO.
- Implemented user authentication and authorization functionalities to ensure secure access to the chat platform.
- Integrated Socket.IO to enable real-time bidirectional communication, enabling instant message delivery and updates.

### My Portfolio

2022

- Live link <https://portfoliodevesh1407.netlify.app>
- Created a professional portfolio website using HTML, CSS, and JavaScript to showcase personal projects, skills, and accomplishments.
- Showcased personal projects, work experience, education, skills, and contact information in a clear and organized manner to effectively communicate professional background and qualifications.

### Full Fledge movie webapp

- Live Link: <https://my-entertainment-webapp.vercel.app/>
- Developed a dynamic movie web app using React.js to display movie listings, details, and trailers.
- Integrated YouTube API to stream movie trailers within the app.
- Utilized React Router for navigation and Axios for making API requests to retrieve movie data.
